If the collection is not possible again on this next day for the above indicated reasons, the pick-up order will be canceled and, for the next Courier pick-up, the Sender is required to place an order for the service described in this clause again.
- 9) Any Shipments received must comply with the conditions specified for the Shipments in the Terms and Conditions,
- 10) The price for the service described in this section is included in the Pricelist or a separate contract with the Business Customer.

3. The Parcel is deemed delivered at the time of opening the box in the Parcel Locker, in which the Parcel is placed by a person who stated data necessary to open the box or, at the time of its physical delivery to the entitled person, if the delivery is made at the receiving Branch, POP, Mobile Parcel Locker or directly at the Recipient. The Paczkomaty 24/7 services is performed upon enabling the possibility to retrieve the Parcel according to the Regulations, which is made upon delivery of the Parcel to the Parcel Locker and notification of the Recipient pursuant to § 8 or passage 2 or delivery of the Parcel to a different point, pursuant to the provisions of § 9 passage 16-22 below, or delivery in a manner indicated in § 9 passage 4.
4. If justified, InPost reserves the possibility to deliver the Parcel:
 1. directly to the Recipient at the address indicated by them, located within the administrative boundaries of the place where the receiving Parcel Locker is located, and in the event of the Recipient's objection or failure to indicate the address in accordance with the above requirements, the Operator will return the Shipment to the Sender, of which it will notify the Recipient, or
 2. at the Parcel Locker (Mobile Parcel Locker – employee or InPost representative handing over parcels at the Parcel Locker).

A justified situation is defined as overflow of an Parcel Locker, and a breakdown, deactivation, or maintenance of the system that serves the receiving Parcel Locker, if the Operator has previously applied other forms of delivering the Parcel set out in this paragraph, in particular storing the Parcel according to section 18-22 below, or if these other delivery forms could not be applied as a result of force majeure.

5. Delivery of the COD Parcel Locker Parcels directly to the Recipient has to be preceded by paying the fee for this Parcel, at the latest, at the time of its retrieval. The Recipient may pay for the COD Parcel Locker Parcel using PbL, by cash at authorised representatives of the Operator, or with use of the Mobile App. The Parcel Locker Parcel may be issued only upon presenting by the Recipient evidence confirming payment of the entire fee (the COD amount), also in an electronic form or as a retrieval code (in the case of PbL) or after payment of this fee by cash to the Operator's authorised representative delivering this Parcel directly to the Recipient.
6. The Parcel Locker Parcel can be shipped in the Parcel Locker or retrieved from it 24 hours a day / 7 days a week, subject to provisions of the subsequent sentence. The notification contains, among others, an individual code enabling the collection of the Shipment from the Parcel Maker or from the POP, whereas in the case of Appkomat Parcel Locker, the collection is possible via the Mobile Application or by scanning the QR code previously delivered or made available to the Recipient to, with use of the code reader available in such a Parcel Locker. In the case of Collect on Delivery Shipments, a code is sent enabling the payment of the collection fee for the Shipment, excluding Parcel machines for which the payment of the collection fee may be made only via the Mobile Application or Pbl. Persons using the Mobile Application will receive a message that the Shipment is ready for collection along with the authorization code in this application, if the Mobile Application is installed on a device using a SIM card containing the phone number associated with the Mobile Application and the Shipment intended for collection.
 9. The Shipment will be issued only if the correct code and telephone number or other authorization data containing the above data, in particular a QR code, are provided. In the case of collection of Shipment using the Mobile Application installed on the device using the SIM card containing the phone number associated with the Mobile Application and the shipment intended for collection, it is not required to provide the code and phone number (due to the possibility of remote collection of the Shipment using the functionalities available in the Application, while the Operator notifies that the availability of this functionality depends on the GPS system coverage, which may be limited or unavailable in certain locations, which may result in the inability to use this form of collection of the Shipment).
 10. It is only possible to pay for cash on delivery shipment, once the correct code and telephone number are provided. The above does not apply to the Parcel Lockers, for which the payment for the Cash on Delivery Shipment may be made only via the Mobile Application or Pbl.
 11. If the code is lost - the Recipient may retrieve authorization code or undergo remote authorization process, by contacting the Operator's technical helpline by calling: 722-444-000 or 746-600-000 (both from landline and mobile phones). The Operator sends the recovered code by a text message or an e-mail only for data assigned to a given Parcel if the User, before physical collection of the Parcel requested the Operator to withhold the release of the Parcel for reasons indicated in the following sentences. In the case of the theft or loss of the phone or the SIM card the Recipient immediately contact the Operator by phone and the Operator, as far as possible, will undertake to return the Parcel to the Sender, according to the Price List. For this purpose the Operator may also contact the Sender by phone.
 12. The Recipient bears the risk related to transferring the content of the text message containing the code, or the content of the mobile App containing it or other data enabling the opening of the Paczkomat locker, to other persons. It is agreed that a person who receives the text message with the code from the Recipient is authorised by the Recipient to collect the Parcel Locker Parcel on behalf of the Recipient.
 13. The Parcel Locker Parcel requires the Recipient to proceed according to instructions displayed on the Parcel Locker's screen if the Parcel is delivered to the POP or directly to the Recipient. Shall the Parcel Locker Parcel be collected with use of the mobile App, the collection of such parcel requires the actions of Recipient that are consistent with instructions displayed in the mobile App.
 14. Availability of particular COD payment forms for particular Parcel Lockers or POP published at: <https://inpost.pl>
 15. In this situation, the Operator will send the recipient an e-mail or SMS with an information about possible overfilling of the receiving Parcel Locker, together with a link to a generated website in the <https://kurier.inpost.pl/domain>, where the Recipient can express their consent or objection for the delivery of the Parcel to a different Parcel Locker, specified on this page, and if the Recipient gives their consent for this other Parcel Locker, the Parcel can be delivered to that Parcel Locker, or to the originally selected Parcel Locker, if, after the Recipient agreed, the delivery of the Parcel to that originally selected Parcel Locker became possible. The Recipient can change their decision to redirect the Parcel, within the time and in the manner specified on the website mentioned in the previous sentence. The link to the website mentioned in the first sentence shall be transferred to the recipient by the Operator in an e-mail or SMS, containing also the information about the time in which the Recipient can express their consent or objection for the delivery of the Parcel to another Parcel Locker.
 17. If the Recipient does not agree for the delivery of the Parcel to a different Parcel Locker, or if they fail to decide in this respect within the specified time, pursuant to the provisions of section 16 above, the Parcel will be delivered to the receiving Parcel Locker, provided that, if the Parcel cannot be delivered to that Parcel Locker for reasons specified in section 18 below, the Operator shall apply the procedure as specified in this section.
 18. In the case of:
 - a) overfilling of the receiving Parcel Locker, or the Parcel Locker chosen according to section 16 above,
 - b) a breakdown, deactivation, or maintenance of the system that handles the receiving Parcel Locker, or the Parcel Locker chosen according to section 16 above, if the events described in the aforementioned letter a) or b) prevent the delivery of the Parcel to the Parcel Locker on the date indicated in section 1 above, the Operator will place the Parcel in storage at the POP or Temporary Parcel Locker, which will be located no more than two (2) kilometers in a straight line from the receiving Parcel Locker
 19. The Shipment storage time at the place of storage, i.e. Temporary Automatic Parcel Station or POP according to section 18 above (hereinafter "Storage Period") is the following:
 - a) one (1) calendar day directly after the day when the Shipment was put in a POP or a Temporary Automatic Parcel Station, or
 - b) a holiday and any holidays directly after it, if such day (days) are directly after the day when the Shipment was put in a Temporary Automatic Parcel Station (in such a case, storage can proceed only in the Temporary Automatic Parcel Station), or
 - c) one (1) calendar day and, if the directly following day is a holiday and any holidays directly after it (if such day (days) are directly after the day when the Shipment was put in a Temporary Automatic Parcel Station) – in such a case, the Storage period is also this holiday or holidays; in the case described in this letter, storage can proceed only in a Temporary Automatic Parcel Station,- provided that a "holiday", mentioned in letter b and c above is a day which is a holiday as defined by the Polish law (except for Sundays, unless the holiday specified in these regulations is on Sunday, e.g. Easter Sunday).
 20. In the case of storing the Shipment at a POP or a Temporary Automatic Parcel Station, according to section 18 above, the Operator sends the Recipient an sms or e-mail message or through the mobile application containing information concerning the following:

valid from 4 August 2022

- c) putting the Shipment in the Parcel Collection Station – after the end of the process of its delivery to the Parcel Collection Station indicated in letter b above.
21. During the whole Storage Period the Operator allows the Shipment to be collected from the place of storage, i.e. POP or Temporary Automatic Parcel Station (excluding periods during which these locations are not open).. If the Recipient has not collected the Shipment in the Storage Period, this Shipment will be collected by the Operator from the place of its storage - for delivery to the Parcel Collection Station - on the date directly after the last day of the Storage Period and, consequently, until the Shipment is collected by the Operator from the place of its storage, it is possible for the Recipient to pick it up from such place. For Shipments delivered to the Parcel Collection Station after the end of the storage procedure in a POP or a Temporary Automatic Parcel Station, as described in the preceding sections, the principles of delivery described in this paragraph shall apply.
 22. If it is necessary to apply the provisions of section 18-21 above due to the need to conduct maintenance of the Parcel Station operating systems by InPost, then such day is treated in the same way as a holiday described in sect. 19, and in such case the Storage Period is determined by respectively applying sect. 19 letter b) or c) above. System maintenance cannot last more than one (1) calendar day, and the Operator will inform about such maintenance at least 7 days prior to its planned date, in the form of a message on the website: <https://inpost.pl> and can also notify about such maintenance through MP, an e-mail or SMS text message, or in the Mobile Application.
 23. If the Shipment exceeds the dimensions of 250x400x480 (in millimeters) or the weight of 7 kilograms, and its Parcel Locker is a Robomat Parcel Locker, this Shipment will be handed over for delivery in the POP where the Robomat Parcel Locker is located, of which the Operator will notify the Recipient in accordance with § 8 section 4 of the Regulations above. In the event of overflow or failure of the POP, the provisions of section 18-21 above will apply to Shipments directed to the Robomat Parcel Locker accordingly.
 24. Collection of Parcels using mobile App, pursuant to rules set out in the present paragraph is possible in selected Parcel Lockers only, the list of which is available at: <https://inpost.pl>.
 25. Shall there be more than one parcel placed by the Operator in the selected Parcel Locker, belonging to the same Recipient the Operator reserves the right to place all of such Parcels, or the Parcels selected at its discretion, in a single Parcel Locker. The Recipient shall be notified by the Operator about placement of multiple parcels in a single locker, under the previous sentence, in a message mentioned in passage 8 above. This provision shall not apply to Parcels subject to the additional COD service.
 26. The Recipient, on the terms set out in the regulations of the Mobile Application, may order the Operator to attempt to place the Parcel in the parcel lockers located in the so-called "Easy access zone", i.e. the parcel locker area with easier access to the lockers in relation to the lockers located in its extreme areas (lower and upper levels), in which case the following rules shall apply:
 - 1) submission of the above instruction is possible via the Mobile Application separately for each Parcel, starting from the moment it is recorded in the Operator's IT systems,
 - 2) such an instruction may be submitted no later than the moment the Parcel is handed over for delivery, as confirmed by the appropriate status of the Parcel (in the tracking system available on the Operator's website or in the Mobile Application), notifying that the Parcel was handed over for delivery. For operational reasons, the Parcel may be handed over for delivery - on the date of its scheduled delivery - at different times,
 - 3) the moment the Parcel is handed over for delivery, the possibility of placing an order to place the Parcel in the easy access zone will become inactive,
 - 4) the Operator's implementation of the instruction to place the parcel in an easy access zone will be possible only in a situation where the Parcel Locker boxes appropriate for the size of the Parcel to be delivered, located in the easy access zone, will not contain other Parcels at the time of delivery to the Parcel locker,

In addition, the Recipient may obtain information about the last name or name of the sender of any Shipment which has been returned to the Sender due to not being received in due time by the Recipient. The Operator allows the above information to be provided to third parties (not being the Sender or the Recipient) only in cases specified by regulations of the commonly binding law.
